About LMC Metal

LMC Metal, established in 2014 and headquartered in Guangzhou, China, specializes in providing customized metal building material solutions for global restaurants, hotels, banquet halls, and public engineering projects. As an industry innovator, our core products include stainless steel doors, screens, partitions, aluminum curtain walls, and more, all of which have earned the trust of clients both domestically and internationally.

Since its inception, LMC Metal has successfully serviced numerous significant projects, ranging from dining spaces to large public buildings, thanks to its superb craftsmanship and innovative designs. Our products not only aim to perfectly blend aesthetics and functionality, but we also meet every client's unique needs precise customized services. We work closely with our clients to create distinctive spaces, adding value and charm to their projects.

Today, LMC Metal has established a strong client base in key global markets, particularly in the UK, India, Bangladesh, Canada, Thailand, and Kuwait. Through our exceptional technology, high-quality products, and meticulous services, we have earned widespread recognition and trust.

2018 Guangzhou Window

2019 Grand Sapphire Hotel, UK

2023 MH ONE Hotel, India

2024 Shantou International Convention & Exhibition Centre

Our business spans the globe, and we have established branch offices in London, UK and New Delhi, India, dedicated to bringing high-quality metal building materials to customers worldwide. We have won wide recognition for our high-quality products and services. Our customers include international renowned hotel brands such as Marriott, Hilton, and Ritz-Carlton, and we have clients all over the world. Our mission is to bring good decorative metal building materials to more people and provide customers with a better spatial experience.

2016

Construction of the factory is located in Foshan Nanhai With the addition of shops

2017

Accession of large-scale equipment for processing metals

Quality

assurance is our aim It is also the customer's choice of peace of mind

one-stop

Follow-up maintenance and installation is what allows us to build relative trust with our customers.

In order to stay true to its mission, LMC Metal aspires to become a renowned architectural metal manufacturer both domestically and internationally, and will continue to improve itself to create a better future with its customers, employees, shareholders and business partners!

Design & Patterns

The combination of stainless steel doors with other materials, especially artistic glass, brings a unique aesthetic and modern flair to any space. LMC Metal excels at blending stainless steel with various materials such as glass, wood, and stone to create personalized and creative design solutions. We focus on every detail, striving to achieve a perfect fusion of materials that delivers a distinctive visual effect and high-end quality.

Door & Handle

Custom Fashion Door & Handle

LMC Metal stainless steel doors and handles bring a sleek, modern aesthetic to any space, whether indoors or outdoors. With a wide variety of styles and designs, LMC Metal doors and handles cater to diverse tastes, offering a stylish and cost-effective way to enhance the look of your home or office.

Parameter	Details
Material	Aluminum Alloy, Stainless Steel
Dimensions	Fully customizable for thickness, height, and length
Tolerance	Precisely manufactured with ±1% tolerance
Finish Options	Brushed Nickel, Chrome
Color Choices	Silver, Gold, Rose Gold, Black, or other custom colors
Edges	Available in mill or slit finish
Production Process	High-precision cold rolling technology
Packaging	Protected with pearl cotton and secured in wooden cases
Compliance Standards	Meets JIS, AiSi, ASTM, GB, DIN, and EN standards
Applications	Ideal for hotels, offices, villas, KTVs, and more

Applications & Benefits

- LMC Metal doors seamlessly blend sophistication with outstanding functionality. Crafted from premium materials, they unlock endless creative possibilities for public and private spaces alike. Here are some key advantages of choosing LMC Metal doors with stainless steel handles:Exceptional Durability: Built to endure heavy use, resist rust, and maintain their pristine appearance over time.
- Minimal Maintenance: Designed for ease of care, eliminating the need for frequent repainting or refinishing.
- Improved Security: Robust construction makes them highly resistant to break-ins, providing peace of mind and added safety.

Swing Door

LMC Metal swing doors combine classic design with modern craftsmanship, making them ideal for both commercial and private spaces. They offer convenient and secure usage with options for floor spring automatic opening or hinge-connected manual opening. The appearance can be fully customized to suit diverse design preferences.

Key Features.

- Durability: Stainless steel construction ensures excellent corrosion and wear resistance, ideal for high-traffic areas.
- Elegant Design: Simple and sophisticated look with customizable colors and finishes to elevate any space.
- Versatility: Supports both floor spring and hinge connection, catering to different functional needs.

Specifications

Parameter	Details
Material	Stainless Steel, Aluminum Alloy
Dimensions	Customizable for thickness, height, and width
Opening Mechanism	Floor spring (automatic) or hinge (manual)
Finish Options	SBrushed, Polished, or Custom
Color Choices	Gold, Rose Gold, Black, Silver, Copper, or Custom Colors
Applications	Hotels, Offices, Villas, Restaurants, Wedding Hotels, and other high-end spaces

Sliding Door

LMC Metal sliding doors are designed with a modern aesthetic and focus on efficient space utilization. The sliding system ensures smooth and quiet operation. The system can be fully customized to support automatic opening, manual opening, or even motion sensor activation, making it the perfect choice for optimizing layouts.

Key Features.

- Space Efficiency: Sliding design frees up additional space, ideal for limited areas.
- Quiet Operation: High-quality track systems ensure silent and seamless opening and closing.
- Customizable Design: Available in various finishes and colors to match different architectural styles.
- Opening Mechanism: Fully customizable, supporting automatic, manual, or motion sensor-based opening for enhanced convenience and a smart experience.

Specifications

Parameter	Details
Material	Stainless Steel, Aluminum Alloy
Dimensions	Fully customizable for height, width, and thickness
Track Options	Concealed or Exposed
Finish Options	Matte, Brushed, Polished, or Custom
Color Choices	Silver, Gold, Rose Gold, Black, Copper, or Custom Colors
Opening Mechanism	Automatic, Manual, or Motion Sensor Activation
Applications	Commercial Buildings, Hotels, Offices, Restaurants, Wedding Hotels, etc.

Folding Door

LMC Metal folding doors feature innovative multi-fold designs, maximizing opening areas while maintaining aesthetic appeal and functionality. Perfect for large entrances or spaces requiring flexibility.

Key Features

- Wide Opening: Folding structure allows for maximum opening space, enhancing accessibility.
- Flexible Design: Supports multi-panel configurations, customizable to different sizes and layouts.
- High Durability: Premium stainless steel materials ensure long-lasting performance in various conditions.

AL-04 ▼

AL-05 ▼

AL-06 ▼

AL03 ▼

Designers will create metal doors that are both functional and aesthetically pleasing according to different stylistic needs, such as modern minimalist, classic European or industrial. These designs often incorporate geometric shapes, natural elements or abstract motifs, and display a unique artistic appeal through the unique texture and colour of the metal material.

AL-07 ▼

These designs are a skilful blend of geometric shapes, natural elements and abstract motifs, showing the beauty of structure as well as the harmony of nature and the spirit of art. Through clean lines, organic forms and creative abstract expressions, the metal door becomes not only a practical facility, but also a unique work of art. Every detail is carefully conceived, aiming to bring visual enjoyment and spiritual touch to users.

AL-08 ▼

AL-09 ▼

◀ AL-10

AL-11 ▲

By allowing sight lines to penetrate, the cut-out design effectively expands the visual space and makes the room appear more spacious and bright. This effect is particularly noticeable when used on interior partitions or patio doors, enhancing the overall sense of space.

AL-12 ▼

Designers can customise unique patterns and design elements according to customers' individual needs and preferences. Whether it is a classic pattern, delicate openwork, or a contemporary mirror effect and square tube structure, they can be flexibly combined to meet the specific requirements of our customers. Careful design ensures that every detail is perfectly suited to the customer's unique tastes and needs.

AL-13 ▼

◀ AL-13

The combination of geometric shapes and large area screening creates a visually rich layering. The large area of blocking not only protects privacy, but also allows the right amount of light to enter through the geometric part of the opening, balancing the need for privacy with the need for light. This design approach enhances the three-dimensionality of the space while ensuring a perfect balance between functionality and aesthetics.

AL-14 ▼

AL-15 ▼

The combination of square tubes adopts a simple and direct design language, and by arranging them in parallel, it is able to create a strong sense of modernity and a clean visual effect. This design not only highlights the texture of the material itself, but also demonstrates the glamour of industrial aesthetics, which is ideal for the pursuit of simple and stylish space decoration.

AL-16 ▼

AL-17 ►

AL-18 ▼

As a recyclable material, stainless steel is friendly to the environment and can effectively reduce the waste of resources. It does not contain lead, mercury and other harmful substances, ensuring safety and non-toxicity during use, which protects both the environment and human health.
